The Garden Table — Service And Guest Experience

Table Service

Guests are seated by the host. A server normally takes the first drink order shortly after seating and provides the food menu. Guests may ask about ingredients, substitutions, and allergens.

Dietary Requests

The kitchen can accommodate vegetarian requests and can modify some dishes to remove dairy. Guests with serious allergies should inform the server before ordering.

Special Occasions

Guests celebrating birthdays or anniversaries can request a small dessert message when making a reservation. Small table decorations are allowed with advance notice.

Service Issues

If an order is incorrect or a dish has a problem, guests should tell their server as soon as possible. The restaurant will review the issue and may replace the dish when appropriate.
